

Plastic Bags & Styrofoam

FAQ: Why can't I recycle plastic bags or Styrofoam in my residential cart?

Bags and Wrap: Plastic bags and wrap can get tangled in recycling equipment and cause major operational problems. They also get contaminated by residual liquids in the carts. Clean, dry bags and wrap can be brought to the self service recycling center.

Styrofoam: The curbside recycling trucks compact material and Styrofoam then can't be effectively recycled. Clean Styrofoam (no packing peanuts) can be brought to the self service recycling center.
